SOMMAIRE

Sous le charme d'une grande ville

Ces constructions sont-elle des gratte-ciels, dominant fièrement le ciel?
Ou des lumières séduisantes de la ville, qui promettent des aventures passionnantes?

Ce sont les produits de la gamme OCTO de conception spéciale, offrant aux enfants plus âgés et aux adolescents une expérience unique et stimulante.

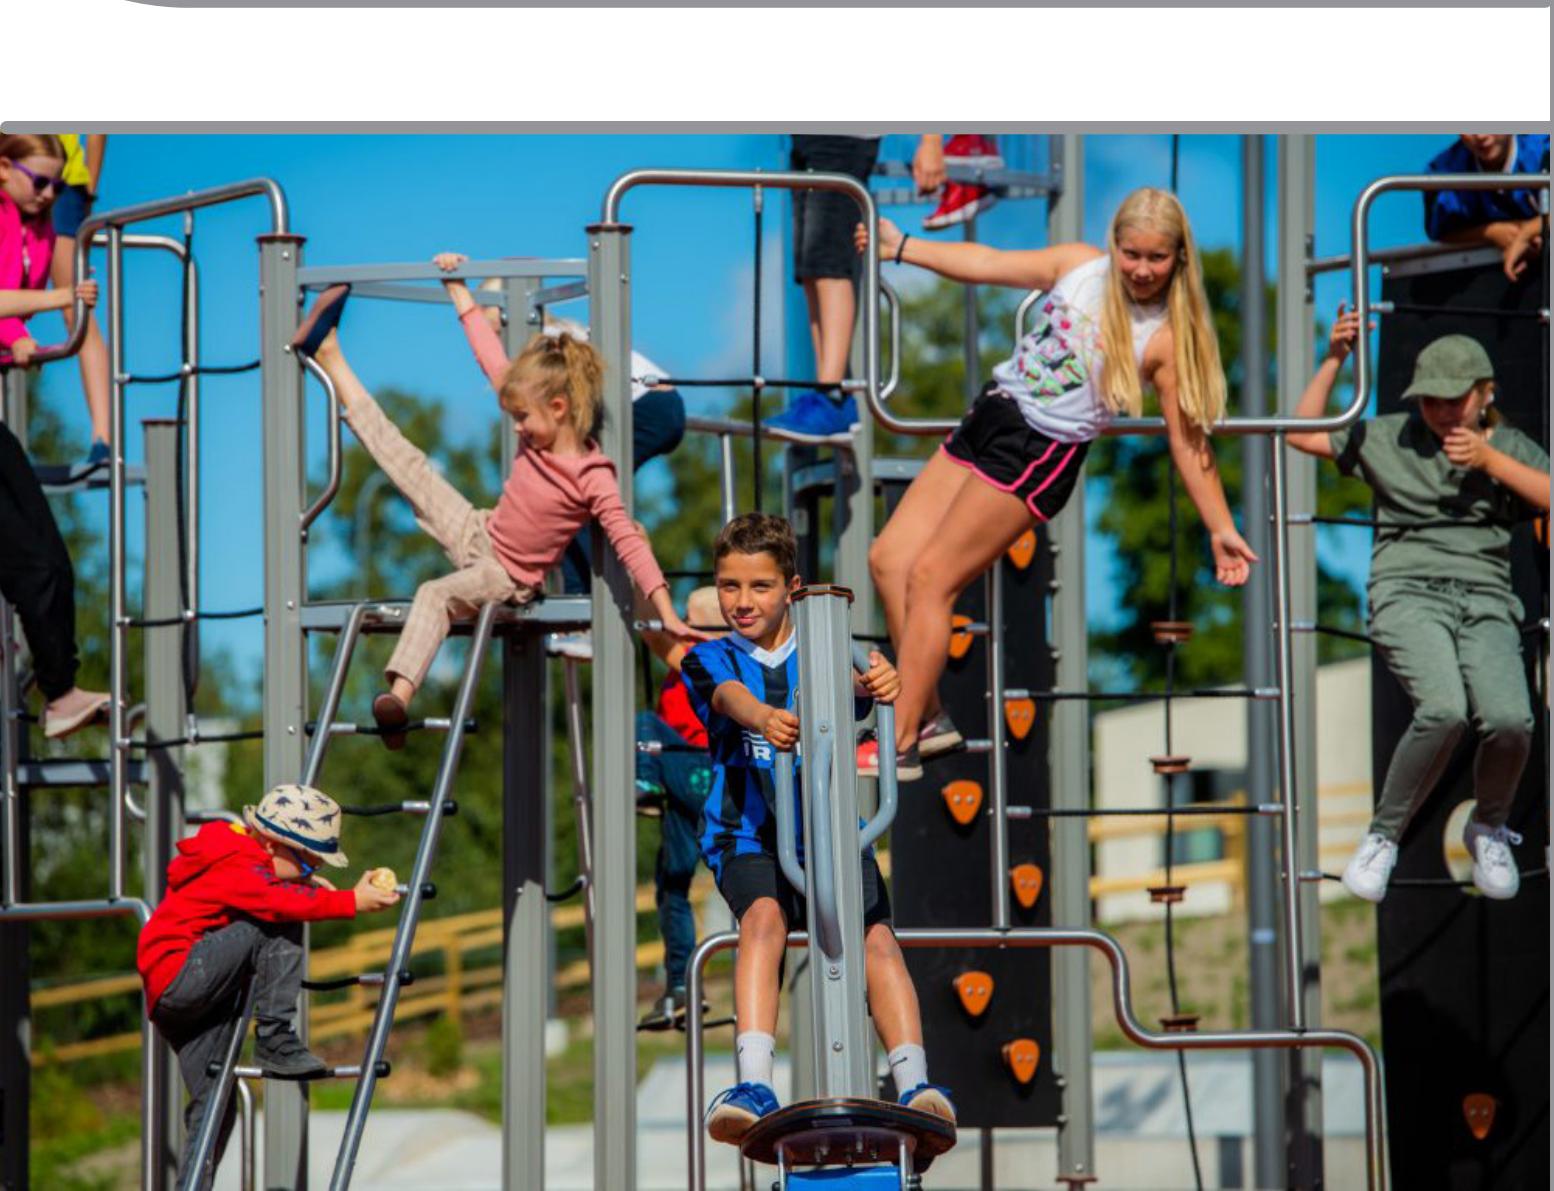

Cette gamme est comme une grande ville où tout le monde se sent capable de gagner!

octo

Design

Ce nom découle des poteaux octogonaux modernes en aluminium avec leur teinte grise, très adaptés à l'environnement urbain contemporain. Le développement de gammes conceptuel pour les grands enfants et les ados ne cesse de s'élargir.

Qualité

Les panneaux en acrylique de la gamme OCTO accentuent cet impression de grands immeubles en verre, de gratte-ciel. Ces panneaux durables et d'une extrême résistance sont ceux utilisés dans le monde du hockey.

Les attractions survivent même aux plus grands défis.

Sous le charme d'une grande ville

Des Jeux!ou... des Gratte-ciels!

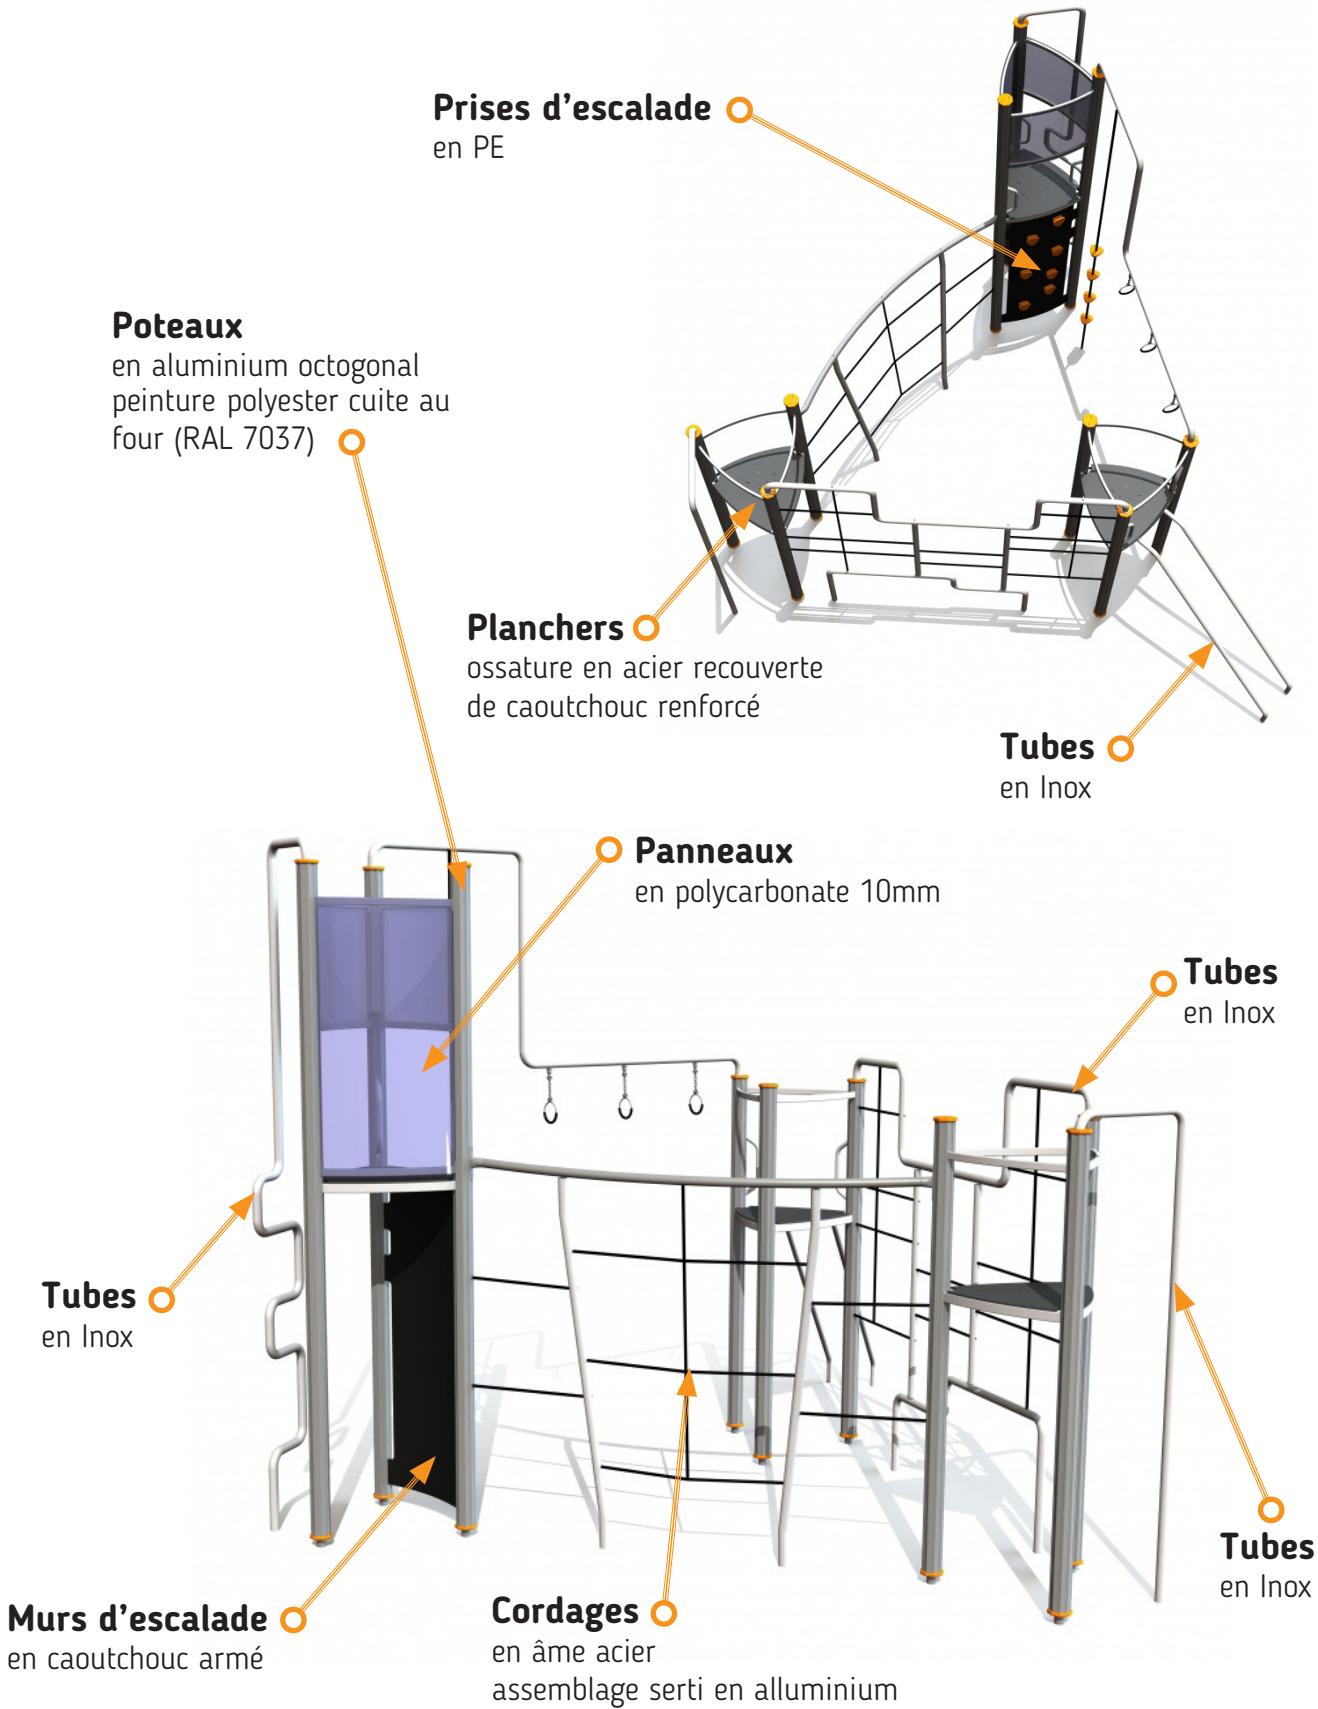

Produits

La gamme OCTO propose des activités de développement, de challenge et d'effort physiques aux enfants plus âgés qui souhaitent ardemment se tester.

La gamme comprend de petites, grandes, et méga structures, différentes installations d'escalade, de spinners, ect...

Un nouveau lieu de rencontre est né!

urban

Le désir de créer est caché dans la nature de chaque personne. Viser quelque chose et faire ses preuves. Pour montrer que les objectifs sont réalisables. Surmonter tous les obstacles et déplacer les frontières. Nous sommes sûrs de nous parce que nous sommes jeunes.

La nouvelle gamme de produits URBAN impressionne par son apparence puissante. On a le sentiment d'affronter quelque chose de puissant et d'éternel. En effet, le matériau de type béton lourd est à l'épreuve du vandalisme et extrêmement durable. Vous serez convaincu immédiatement après en avoir lancé le défi.

Les différents labyrinthes assemblés à partir de modules permettent de se sentir les bienvenus et de surmonter les obstacles. Venez démontrer votre talent!

La gamme urbain offre tout ce que les jeunes recherchent et attendent. Ils peuvent démontrer leur force et leur compétence, leur rapidité et leur invention, leur esprit et leur créativité. Les tons de gris se réfèrent aux graffitis.

Le design urbaniste moderne s'adresse à la fois aux admirateurs de l'architecture moderne et aux âmes artistiques les plus folles. Les produits de la gamme URBAN sont faciles à installer. Une apparence puissante cache des matériaux de haute qualité qui, combinés avec du béton armé et de l'Inox, garantissent la meilleure durabilité.

Que les villes soient petites ou grandes - partout où il y a URBAN, il y a les jeunes
